

CHEM 551-552 Research Project Selection

Students taking CHEM 551-552 are required to speak with at least three faculty concerning their research interests and work, then rank the research groups/projects/areas according to their preference (1 = most preferred). The signed forms need to be provided to Dr. Owens before the student may register for CHEM 551. Every effort will be made to accommodate student research interests and to ensure there is an equitable availability of research resources – facilities, supplies, equipment and faculty time – for all CHEM 551-552 students.

Student Name: _____ Term: _____

Research Project/Area	Faculty Last Name/ Signature	Preference
_____	_____	_____
_____	_____	_____
_____	_____	_____
_____	_____	_____
