Consultant Satisfaction Survey

The AP Course Audit Consultant Management Team wants to know what you think. To capture your thoughts on topics ranging from payment to the APCA Review site, we've created a Consultant Satisfaction survey. We hope you'll share your thoughts with us!

The survey will be available until Friday, June 20th. To take part in the short survey, please use the following link:

<http://epic.fluidsurveys.com/s/2014-APCA-Consultant-Satisfaction/>

Results of the survey will be shared in a future newsletter.

Making Connections

This quarter's featured consultant is AP Physics C – Mechanics Senior Reviewer and AP Physics C – Electricity & Magnetism Reviewer, Ponn Maheswaranathan. Ponn joined the AP Course Audit in February 2007 and has been assisting AP Physics teachers ever since.

Originally from Sri Lanka, Ponn came to the United States to pursue a Masters of Science in Physics and Ph.D. in Experimental Solid State Physics from Purdue University in West Lafayette, Indiana. After completing his Ph.D., Ponn joined the department of chemistry and physics within the College of Arts and Sciences at Winthrop University in Rock Hill, South Carolina, where he is currently a professor of physics. Some of the courses Ponn has taught include the following: Calculus and algebra-based introductory physics, everyday physics, astronomy, investigative physical science, musical acoustics, materials science, circuit analysis, and engineering mechanics.

Your EPIC Contacts

You can call us toll-free at 1-888-234-0486.

Making Connections, Continued

When not reviewing syllabi – or thinking about semiconductors or superconductors – Ponn enjoys traveling with his family during the summer and learning about different cultures. Some of his family's vacations have included time spent in Canada, India, England, and, of course, Sri Lanka to visit friends and family.

To nominate a fellow reviewer to be highlighted in a future newsletter, please email us at Reviewersupport_1@epiconline.org.

Closeout

The end of the 2013-14 academic year is upon us! This year we've had 174,087 AP approved courses spread over 34 subjects. However, there are still some teachers waiting to receive a final outcome.

In order to finish up the current academic year and transition to the 2014-15 school year, ***we ask that you please sign in to your AP Course Audit account at your earliest convenience to clear out your queue.*** Our goal is to provide all teachers who have submitted syllabi for the 2013-14 school year with a final outcome by June 30th.

2013-14 Summary

Below is a chart depicting an all inclusive listing of the approved AP courses, so far, by subject for the 2013-14 academic year. Thank you all for your hard work and commitment to the AP Course Audit!
